The life science
business of Merck
operates as
MilliporeSigma in
the U.S. and Canada.

Sigma-Aldrich®
Lab & Production Materials

Cell Culture

- From cell lines to supplements, from media to plastic ware, a complete offering of all materials needed to run a cell culture laboratory
- Topics: Commonly Used (Dry Powdered Media, Reagents, Insect Cell Culture, Miscellaneous); Liquid Media; Specialties (Dry Powdered Media, Growth Factors, Sera, Liquid Media, Reagents, Miscellaneous)

NAA/NAP

- Complete portfolio on kits and reagents to run all kind of molecular biology methods in regards to nucleic acid amplification and purification
- Topics: Routine, Other

Microbiology

- A competitive product portfolio on media, supplements and reagents to grow microorganisms and to identify them
- Topics: Organism, Media, Ingredients, Miscellaneous

Routine Biologicals

- Biochemicals from Sigma-Aldrich® bring you the most complete range of high quality products you use every day
- Topics: PCR, Amino Acids & Related, Molecular Biology, Detergents, Electrophoresis, Biocides, Cell Culture, Buffers, Carbohydrates, Inhibitors, Antibiotics, Agarose, Miscellaneous
